DETAILED ACTION

Claim Objections

Claim 15 is objected to because of the following informalities: claim 15 line 10, "plne" is not clearly understood. appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6, 13, 14 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 00/70922.

WO 00/70922 discloses a box shape case (2), a bottom cover (3), a circuit board (11), side strays (10), including a predetermined width, a bend portion forming a predetermined angle with respect to a plane of a bottom cover (Fig 2)(re claims 1, 13)

Re claim 6, see Fig 1.

Re claim 14, see Fig 1.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12 rejected under 35 U.S.C. 103(a) as being unpatentable over WO 00/70922 in view of applicant's admitted prior art

The teaching of WO 00/70922 as discussed above does not disclose a conveyer having a conveyer passage.

applicant's admitted prior art teaches the use of a conveyer having a conveyer passage. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the conveyer with the control unit of WO 00/70922 for the purpose of mass production.

Allowable Subject Matter

Claim 2, 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 15 are allowed.
